\$15	\$15	\$15	\$15	\$15

IRISH GREEN t-shirt w/ White & Orange Screen printing

Konner Gwaltney, age 6, was diagnosed with Acute Lymphoblastic Leukemia on 10/6/18. He is receiving treatment at Peyton Manning Children's Hospital in Indianapolis. Tammy, Konner's grandmother and legal guardian, is staying with him at the hospital. Tammy has taken leave from her job so she is without a paycheck. Konner's grandfather is working during the week and travels to see Konner on the weekends. Konner will be traveling to Indy at least once a week after he is released. Please help the family pay household and travel expenses! No family should have to worry about paying bills when their child is having cancer treatment!
