

# Coins for Konner

Konner Gwaltney is a Highland kindergartener in Mrs. Waller's homeroom. At the age of 6, Konner was diagnosed with Acute Lymphoblastic Leukemia. Konner's grandparents are his legal guardians. At this time, Konner's grandmother is not working while she stays at the hospital to care for Konner. Also due to recent health issues, Konner's grandfather is unable to work. Konner's sister is the president of our National Elementary Honors Society, and as a result the NEHS is wanting to help this family with medical costs and living expenses.

Please consider donating.

We are asking each Highland Family to donate coins during the week of February 4-8.

Every penny will make a difference.

The homeroom that collects the most will win an ice cream party.
